

EGAN SAFETY SOLUTIONS

14 Lee Park, Sitecast Industrial Estate, Pouladuff, Cork. Tel:021-4966560 Fax:021-4966576

Course Title	Electrical Safety Training
Maximum Number of Participants:	12
Duration:	Half day
Certification	

Course details

Part 3 of the Safety Health and Welfare at Work (General Application) Regulations 2007 contains specific requirements for employers with regard to work involving electricity. Such work can be inherently hazardous. As such, additional measures are necessary in order to ensure that employees are suitably prepared to undertake such work.

This course provides employees with an understanding of the provisions which are made under the regulations and will also allow them to become familiar with some of the necessary safeguards.

Objectives

Upon completion of this course, participants will be able to,

- List the implications of the legislation,
- Identify electrical hazards in the workplace,
- Describe protective measures against direct and indirect contact,
- Identify methods of isolation and switching,
- Take action to deal with emergency first aid and electricity,
- Describe the role ETCI play and the implications of their rules,
