Course Title	Work at height training
Maximum Number of Participants:	12
Duration:	Half day
Certification	

Course details

Under Irish legislation employers are required to ensure that employees have a safe means of access and egress to their place of work. Additional legislation places responsibility on employers to ensure that extra provisions are in place where employees are accessing or working in a location where they are at risk of falling. In such situations employers need to ensure that the working platform being used is fit for the purpose which it is being used, and in addition that employees have received adequate instruction and training in the extra precautions which must be taken in such environments.

Objectives

On completion of the course participants will have:

- A familiarisation with the legislation and guidance which deals with working at height,
- Knowledge of the precautions to be taken when working at height.
- Practical experience of wearing and inspecting fall arrest equipment and other PPE
